

KGA New Handicapping Software, Golf App & WHS 2020

Introduction

- State-of-the art handicap software was implemented in November 2019
- User friendly app on Android & IOS is now available
- A player can enter his/her score/fourball score via the app
- Provisions of World Handicap System 2020 will become effective from 1st July 2020

KGA Golf App

- 'KGA Golf' app available on Play Store for Android and app store for iOS devices
- Login credentials are Registered mobile number and Date of birth in DDMMYYYY format
- You can use the app as a digital scorecard for your fourball and upload to the KGA handicap system
- To use the app for scoring during the round
 - Click the "Play" button
 - "Create New Round"
 - Select from a list of golf courses where you are playing
 - Enter names of the players in the fourball
 - Enter scores on a hole by hole basis
 - "Submit" at the end of the round
- You can use it to check your handicap, enter scores after the round, view your past scores and view handicap history
- You can also use the app to register for upcoming tournaments

KGA Handicapping Available Online

- You can also access the system by logging on at www.thc.kga.in
- Login credentials are the same as the app
- In addition to features available via the app, you can see the best scores used for your handicap calculation, do peer review (check any other member's scoring record), print handicap certificate etc.

World Handicapping System 2020

- Has come in to force in January 2020

- KGA is switching over to WHS 2020 compliant system from 1st July 2020
- The WHS system has the following features which might impact your handicap computation
 - Best 8 scores instead of best 10 scores
 - Only maximum net double bogey is considered for handicap
- In the WHS system, handicaps are updated after every round. So you have to check handicap for the day via the app or online before every round that you play
